build communities*

## BUILDING STRONGER NEIGHBORHOODS

Building on the lessons learned from the Great Indy Neighborhoods Initiatives (GINI), Indianapolis LISC has launched *Sustainable Communities*: a platform that brings together proven, comprehensive approaches to community revitalization. LISC is continuing to support those neighborhoods where real change is occurring, helping to ensure that progress spurred by GINI leads to lasting, neighbor-driven change.

Moving forward, LISC will provide support for key staffing, catalyst grants, technical assistance, loans, and other tools to help neighborhoods help themselves—as well as help develop relationships with other funders to support neighborhood projects. We're committed to helping our urban neighborhoods truly become Sustainable Communities—now and for many years to come.

*LISC Sustainable Communities Initial Neighborhoods:* Near Eastside, Near West, West Indianapolis, Crooked Creek, Southeast.

*Priorities of LISC Sustainable Communities:* Expanding Capital Investment in Housing; Stimulating Local Economic Activity; Increasing Family Income, Wealth and Employment; Improving Access to Quality Education; Supporting Healthy Environments and Lifestyles.

*LISC Sustainable Communities Tools:* Support for key staffing, Catalyst grants to seed plan implementation, Technical assistance, Loans & recoverable grants, Partnership brokering
